## Gary's Tips

We often hear from groomers who can't get their newly purchased blades to fit correctly on their clipper. Most detachable blades are universal and are supposed to fit any detachable blade clipper no matter the brand. However, each blade manufacturer uses a slightly different blade bracket design, and manufacturers call their blade parts by different names adding to the confusion. For example, the part of the blade that the hinge locks on to is called by different names such as blade socket, blade bracket, blade saddle (see pages 17,18 under blade parts). It may be necessary to change or adjust this part in order to get the blade to fit properly on the clipper, especially if the blade brand differs from the clipper brand. All blades sent to Ryan's are checked for proper fit and adjusted accordingly.

## MAY/JUNE SERVICE COUPON

Send in your clipper and blades with this coupon and receive \$2.00 off regular repair labor pricing on your clipper. Also we will install a free hinge and latch that works in conjunction with your blade brackets as described in "Gary's Tips" Your blades will be checked on your clipper for proper fit and adjustment.

Send coupon with items Expires 6/30/10

## Payment And Shipping Information

Pack items carefully to avoid damage in shipment. Please insure your package. Send your items by U.S. Mail, FedEx or UPS to:

Ryans Sharpening and Repair Center  
1805 E McDowell Rd  
Phoenix, AZ 85006

Payment information is required before we can begin service. Your card will not be charged until service is complete. Return shipping and handling on most orders is \$8.50. USPS shipments-additional charges may apply. Due to weight, dryers will incur additional shipping charges.

## Blade Sharpening

Sharpening is done on factory-approved equipment, known as hollow-ground. This method allows more pressure at the tips of the blade teeth, thus eliminating dragging and jamming of hair. Blades will cut smoother & stay sharp longer.

Blade . . . . . \$6.29 ea.  
Arco Blade Refurbishing . . . . . 14.95 ea.  
Large Animal Blade . . . . . 7.00 ea.

Blades are disassembled, cleaned, and then checked for worn parts. After sharpening, they are dipped in a blade wash, oiled, reassembled and checked for proper tension and alignment and string tested. All new customers receive a free reusable blade shipper box (see below).

## Regular Shear Sharpening

(Beveled Edge – Non-Honed)

We offer precise, quality sharpening on all style shears. Are you a "Lefty"? Not a problem. Ryan's specializes in sharpening left handed shears. Corrugation of shears is available on request at no extra charge.

Regular Shears . . . . . \$6.79 ea.

## Premium Shear Sharpening

(Convex Edge – Honed)

We now offer specialty sharpening of higher quality convex edge shears. Our flat honing/horizontal sharpening will bring your convex shear back to factory quality.

Premium Convex Sharpening . . . . . \$19.50

## Clipper Repair

Clippers are fully disassembled and cleaned when serviced. All worn parts are checked and replaced if needed. Ryan's is an authorized warranty service center for Oster®, Andis®, Conair, Double-K® and Wahl® clippers.
