

Safety Data Sheet

SECTION 1. IDENTIFICATION

SDS compliant with regulations – (EC) No 1907/2006 (REACH). (EC) NO 1272/2008 (CLP)

Product identifier

Product Name OPAWZ Developer

Other means of identification

Product code No information available

Recommended use of the chemical and restrictions on use

Recommended use Pet care product used for cosmetic effect (Liquid).

Restrictions on use Use only as directed on the product label.

Details of the supplier of the safety data sheet

Supplier identification OPAWZ Inc.

Address Unit 5, 120 West Beaver Creek Rd. Richmond Hill. ON, Canada L4B 1L2

Telephone +1-289-597-3988

Emergency telephone number +1-289-597-3988

SECTION 2. HAZARDS IDENTIFICATION

Hydrogen peroxide (H₂O₂) is considered a hazardous material when its concentration is 8% or higher based on regulations set forth by the Occupational Safety and Health Administration (OSHA). This product (hydrogen peroxide concentration is 6%) is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.122). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

Emergency Overview

This information is based on findings from related or similar materials.

- May be slightly toxic.
- May cause moderate skin injury (reddening & swelling).
- May cause eye irritation.

Potential Health Effects, Signs and Symptoms of Exposure:

Eye No specific information is available. Contains materials that are essentially non irritating, but contact may cause slight transient irritation.

Skin No specific information is available. Contains materials that may cause moderate skin injury (reddening and swelling) and/or sensitization. Prolonged contact may cause blister formation (burns). Since irritation may not occur immediately, contact can go unnoticed.

Ingestion No specific information is available. Contains materials that are considered to be practically nontoxic.

Inhalation No specific information is available. Low volatility makes vapor inhalation unlikely. Aerosol can be irritating.

Sub-Chronic Effects No specific information is available.

Label elements

Labelling according Regulation (EC) No 1272/2008 [CLP]

Other hazards

Hazards not otherwise classified Not available.

See Section 11 for additional toxicological information.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

Not applicable.

Mixture

Chemical Name	CAS No.
Aqua	7732-18-5
Sodium Laureth Sulfate	1335-72-4
Guar Hydroxypropyltrimonium Chloride	65497-29-2
Glycol Distearate	6182-11-2
Cocamide Dea	68603-42-10
Cocamidopropyl Betaine	61789-40-0
Etidronic Acid	7631-94-9
Disodium EDTA	139-33-3
Hydrogen Peroxide	7722-84-1
Oxyquinoline	148-24-3

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

Eye contact: Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.

Ingestion: If appreciable quantities are swallowed, consult specialist if necessary.

Inhalation: In case of exposure to a high concentration of vapor or mist, remove person to fresh air. If breathing has stopped, administer artificial respiration and seek medical attention.

Skin: Remove contaminated clothing and wash contact area with soap and water for 15 minutes.

Most important symptoms and effects, both acute and delayed

No data available.

Indication of any immediate medical attention and special treatment needed

No data available.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Large Fire

CAUTION: High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers. Avoid the use of a stream of water to control fires since frothing can occur.

Unsuitable extinguishing media

Do not scatter spilled material with high pressure water streams.

Specific hazards arising from the chemical

No information available.

Hazardous combustion products

Carbon oxide.

Explosion data

Sensitivity to Mechanical Impact

None.

Sensitivity to Static Discharge

None.

Special protective equipment for fire-fighters

Remove all ignition sources. Wear self-contained breathing apparatus and complete personal protective equipment when entering confined areas where the potential for exposure to vapors or products of combustion exists.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions Avoid contact with eyes

Methods and material for containment and cleaning up

Methods of containment Spontaneous polymerization can occur. Although material is non-flammable, please try to eliminate all ignition sources. Use eye and skin protection. Place leaking containers in a well-ventilated area.

Methods of cleaning up Dike and recover large spills. Soak up small spills with inert solids (such as vermiculite, and clay) and sweep/shovel them into a disposal container. Wash spill area with strong detergent and water solution; rinse with water, but minimize water use during cleanup. Do not flush to the sewer. Dispose and report per regulatory requirements if necessary. Please prevent washings from entering waterways.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling Avoid contact with skin and eyes. Avoid breathing vapor. Keep the container closed when not in use. Avoid prolonged exposure to light. Wash contaminated clothing thoroughly before reuse. Wash skin thoroughly with soap and water after handling. Isopropyl Alcohol can be used to remove sticky residue from hands. Solvents should not be used to clean skin because of increased penetration potential.

When handling gel for product use, do not heat above 100°F/38°C, or disassociation of resins in the product may occur. Material is UV light sensitive, avoid prolonged exposure to light/heat.

Conditions for safe storage, including any incompatibilities

Storage Conditions Store in a cool place, away from heat and light. Store at temperatures below 100°F/38°C.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure limits This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

Appropriate engineering controls

Engineering controls No required

Individual protection measures, such as personal protective equipment

Eye/face protection Avoid eye contact. Ensure eyewash is available. When removing products with an electric file we recommend the use of safety goggles.

Skin and body protection Avoid contact with skin. If contact to skin occurs remove with warm water soap and isopropyl alcohol.

Respiratory protection No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

General hygiene considerations Handle in accordance with good industrial hygiene and safety practice.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical and chemical properties

Physical state Liquid
Color Pure Purple
Odor Perfume

<u>Property</u>	<u>Values</u>	<u>Remarks Method</u>
pH	N/A	None known
Vapor pressure	(mm Hg) at 20°C: < 0.01	None known
Viscosity	N/A	None known
Boiling point	N/A	None known
Freezing/melting point	No data available	None known
Autoignition temperature	No data available	None known
Flash Point	≥ 100°C seta flash	None known
Explosion limits, lower	No data available	None known
Explosion limits, upper	No data available	None known
Decomposition temperature	N/A	None known
Solubility in water	Insoluble	None known
% Volatile	< 0.5	By volume

Other information

Explosive properties	No information available
Oxidizing properties	No information available
Softening points	No information available
Specific gravity/density (water is 1)	1.15
Molecular formula	No information available
Molecular weight	No information available
VOC content (%)	No information available
Liquid density	No information available
Bulk density	No information available
Particle size	No information available
Particle size distribution	No information available

SECTION 10. STABILITY AND REACTIVITY

Reactivity	No information available.
Chemical stability	Stable under normal conditions.
Possibility of hazardous reactions	None under normal processing.
Hazardous polymerization	May occur - Uncontrolled polymerization may cause rapid evolution of Heat and increased pressure that could result in violent rupture of sealed storage vessels or containers.
Conditions to avoid	Storage >100°F/38°C, exposure to light, loss of dissolved air, loss of polymerization inhibitor, contamination with incompatible materials.
Incompatible materials	Polymerization initiators include peroxides, strong oxidizing agents, copper, copper alloys, carbon steel, iron, rust, and string bases.
Hazardous decomposition products	Fumes produced when heated to decomposition may include carbon monoxide and carbon dioxide.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity – oral	No data available
Acute toxicity – derma	No data available
Acute toxicity – inhalation	No data available
<u>Effects and symptoms</u>	
Symptoms/injuries after skin contact	No known effect based on information supplied.
Symptoms/injuries after inhalation	No known effect based on information supplied.
Symptoms/injuries after eye contact	No known effect based on information supplied.
Carcinogenicity	No data available.

Other information

Hazchem code	N/A
Potential health effects	No data available

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity	No data available
Environmental fate	No data available
Physical/chemical	No data available
Bio accumulative potential	No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Ecological aspects

Ecological general	The environmental impact of this product has not been fully investigated.
--------------------	---

Disposal instructions

Waste disposal	Dispose of in accordance with local regulations.
Product disposal	Dispose of in accordance with local regulations.
Container/package disposal	Dispose of in accordance with local regulations.
Disposal precautions	Use Personal Protective Equipment as per Para 8.

EU and local legislation

EU	Directive 91/689/EEC on hazardous waste
Canada Waste Code	A720

SECTION 14. TRANSPORT INFORMATION

<u>DOT</u>	NOT REGULATED
Proper Shipping Name	NON-REGULATED
Hazard Class	N/A
<u>TDG</u>	Not regulated
<u>MEX</u>	Not regulated
<u>ICAO</u>	Not regulated
<u>IATA</u>	Not regulated
Proper Shipping Name	NON-REGULATED
Hazard Class	N/A
<u>IMDG/IMO</u>	Not regulated
Hazard Class	N/A
<u>RID</u>	Not regulated
<u>ADR</u>	Not regulated
<u>ADN</u>	Not regulated

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

This preparation was classified in compliance with the directive known as <All preparations> 1999/45/EC and its adaptations. In addition, directive 2004/73/EC with the 29° adaptation of directive 67/548/EEC (Hazardous substances) has been taken into account.

Chemical safety assessment

No data available.

Compliance additional legislation

No data available.

SECTION 16. OTHER INFORMATION

<u>NFPA</u>	Health hazards	0	Flammability	0	Instability	0	Physical and Chemical Properties -
<u>HMIS</u>	Health hazards	0	Flammability	0	Physical hazards	0	Personal Protection X
